Dr. SanFilippo has an excellent manner - he is clear, concise, responsive, and exudes expertise and kindness. Although he is incredibly busy and is often booked up (so appointments need to be made well in advance), the appointments are very helpful, and help alleviate anxiety and fears related to the treatment of infertility.

Joseph Sanfilippo, MD at Children's Hospital of Pittsburgh

Reactive hypoglycemia, postprandial hypoglycemia, or sugar crash is a term describing recurrent episodes of symptomatic hypoglycemia occurring within four hours after a high carbohydrate meal in people both with and without diabetes. The term is not necessarily a diagnosis since it requires an evaluation to determine the cause of the hypoglycemia. The condition is related to homeostatic...
